Fire & Rescue Services ITO

FRSITO Charter - Feedback Sheet

The FRSITO Board has developed a Charter in consultation with industry groups.

The Charter sets out FRSITOs mission, role and strategic intent, especially as they relate to the Tertiary Education Strategy.

As the Charter is a 'living' document, **we would value your comments and feedback** on it, as it has been developed to ensure we are meeting the education and training needs and requirements of the fire and rescue services industry.
